

Create custom hats with this handy press. Add logos, images, text and more using heat transfer vinyl, Infusible Ink, or sublimation prints.

- 1** Create your design. See Step 2 OR step 3 for how to do this.
- 2** Use the Cricut Design Space app to create a design. This app has templates, fonts, and images you can customize. See the Cricut help sheet for more details about designing, cutting, and weeding your design. Design Space has a handy hat template you can use if you're just getting started with the Hat Press.
or
- 3** Print your custom photo using the sublimation printer. See the sublimation printer help sheet for more information on how to do this. This step will only work if your hat is polyester. For all other materials, use step 2.
- 4** Position your hat around the pressing form (bean bag). Make sure it is smooth - if your hat has a sweat band, fold it down so that the area behind your design space is smooth.
- 5** Use heat resistant tape to attach your design securely to your hat.
- 6** Use the Cricut Heat app to find and set time and temperature settings.
- 7** Follow the on-screen prompts on the Cricut Heat app. The app will guide you through heating your design.
- 8** Once the material is cool to touch, peel away the tape and liner.
